

COGS 300 Group work agreement

As members of this project team, we agree to the following principles to ensure a positive, productive, and cooperative working environment:

1. Cooperation: Each member will actively contribute to group discussions, planning, and tasks. We will listen to each other's ideas and work together toward common goals.
2. Support: We will help one another when someone is struggling or needs assistance. No one should feel left out or overwhelmed; we are all responsible for making sure everyone succeeds.
3. Accountability: Every member will take responsibility for their assigned tasks and communicate openly about progress or challenges. We will avoid letting tasks go unfinished or ignored.
4. Respect: We will treat each other with respect, valuing everyone's input and perspective. Differences in opinion will be handled constructively.
5. Engagement: Everyone is expected to participate and avoid doing nothing. If someone is unsure how to help, they will ask for guidance or offer support where needed.
6. Communication: We will keep each other informed about our availability, deadlines, and any issues that arise. Prompt responses and updates are expected.

By agreeing to these guidelines, we commit to working together in a fair, respectful, and supportive manner throughout the project.
